## STATEMENT N° 13 094 03

(In accordance with EN 45014 General criteria for supplier's declaration of conformity)

### **REGULATION: California Proposition 65,** The Safe Drinking Water and Toxic Enforcement Act of 1986.

The Proposition was intended by its authors to protect California citizens and the State's drinking water sources from chemicals known to cause cancer or reproductive toxicity.

The undersigned, Mrs Leslie Levas, Cosmetic Regulatory affairs Manager, hereby certifies that the products listed in annex, which are commercialized by SEPPIC, may not contain any substances listed under Proposition 65.

A warning about listed chemicals known to cause cancer ("carcinogens") is not required because we can demonstrate that the exposure occurs at a level that poses "no significant risk" or because we can demonstrate that the discharge will not cause a "significant amount" of the listed chemical to enter any drinking water source, and complies with all other applicable laws, regulations, permits, requirements, or orders: <http://oag.ca.gov/prop65/faqs-view-all>

This certificate was established to the best of our knowledge, at the date of this certificate. It is however your responsibility to abide by any clause of any regulations which may apply to the product that you manufacture or to the use you make of our product.

Paris La Défense, February 6, 2014

Leslie Levas  
Cosmetic Regulatory affairs Manager
